

January 10, 2008

To whom it may concern:

I was the President of Villas of Lake Arbor Condominium I Association for many years. The Last 4 years of my reign I was privilege to have the assistant and guidance of Dorothy Spriggs a licensed property manager with the State of Florida. I have since retired.

Dorothy was very helpful in directing the Board and myself in some of our issue and seeing that we were in compliance with the State Statues of Florida.

If you are considering have Dorothy handled your property as a manager, you are placing yourself in very capable hands. I have found her to be conscientious and efficient in her work. Her concern for our community was as great as mine. I often look to her for guidance and went away with the feeling that I knew what was best for our community, and that she had help me know the right decision to make. But the decision was mine.

Sincerely,

Dick Ijams
